- e. Focus and do the task over a period of time.
- f. A chance that something may happen.
- g. Travel to work.
- h. A control on something or a point in the past where something cannot progress.

4- Look at the statement and give your opinion about it:

With technology advancing the way it is, soon the office will become a thing of the past. There will be really no need for people to all have to work in the same building with meetings and socializing all being able to take place online. Employees and companies will all benefit enormously the sooner this is a reality.
