

Unit 1

Job interview

1- Role play:

The best way for an interviewer to get to know us is by asking some questions. And you need to be prepared for it. In this exercise, you will need to write a brief description about you and your job. Your interviewer will ask the questions:

- Can you tell me about yourself?
- Tell me about your last work experience.
- What programming languages do you work with?
- Do you have any experience with databases, DevOps, Front-end, or Back-end?

[illegible]
