Please note irregular verbs that take a prefix (e.g., "resell" or "undo") use the same irregular forms as their base word (e.g., "resold" or "undid").

Also, you'll notice that some irregular verbs don't change at all — the base, and simple past tense forms are all the same word.

3- Complete the sentences using the irregular verbs on the parentheses:

1. I _____ (write) a new algorithm for the project.
2. You _____ (run) sufficient tests, leading to error. (negative)
3. _____ she _____ (build) the user interface from scratch?
4. They _____ (deal) with a critical bug in the code.
5. We _____ (meet) with clients to discuss project requirements.
